**SUBJECT** Compensation Plan Enhancement

---

Greetings of **PROSPERITY** and **FITNESS!!!**

We, the management, has conducted a study into our enterprisers' business profitability and have found that some ways to earn have been underutilized or neglected. Considering this, we are excited to announce a compensation plan enhancement that we are sure would bring the most benefit to you and your business.

The previously tiered discounts will be adjusted to an **automatic 20% discount for ALL ENTERPRISERS** regardless of the number of accounts he/she has. Some reasons for such adjustment are the following:

- To promote our PF Store Products.
- To encourage new enterprisers to supplement their binary income with DIRECT SALES and UNILEVEL income by selling PF Store Products.
- To encourage the future hubs to carry and push the PF Store Products.
- To offset the rising raw materials and incidental costs instead of raising our Standard Retail Prices.

We forecast that enterprisers who fully utilize the earning power of DIRECT SALES and UNILEVEL can easily earn **P10,000 to P30,000** of additional monthly income.

This compensation plan enhancement will take effect on **May 16, 2022**.

Thank you for your cooperation and continued support! More power to you and **YOUR PRO-FIT BUSINESS**.
